## PROJECTS

---

### Computer Graphics Algorithm Visualization

*HTML, CSS, JavaScript*

- Developed a single-page website showcasing computer graphics algorithms.
- Dynamically adjusted graph layouts based on user input for optimized visualization.

### VocabFast - Personal Vocabulary Learning Tool

*CSS, Java, JavaFX, MySQL*

- Created functionality for users to create personalized word lists.
- Implemented features allowing users to delete and edit words within their lists.
- Integrated word quiz feature, enabling users to test their vocabulary and view their results

## PROBLEM-SOLVING

---

Solved around 200 problems on different platforms.

Here's my profile links: [LeetCode](#), [Codewars](#)

## OTHERS

---

### **Industrial Training at BJIT Academy**

- A one-week industrial training program.
- Specializing in agile methodologies and software development.
